

# IFMA's Performance & Quality Course

Student Guide

**IFMA**<sup>TM</sup>  
International Facility Management Association  
Empowering Facility Professionals Worldwide

# Table of Contents

- IFMA Credentials**
- IFMA's Core Competency Courses**
- About IFMA Credentials**
- Facility Management Professional (FMP) Program**
- Course Overview**
- Introductory Activity**
- Course Expectations**
- Course Outcomes & Objectives**
- Course Structure**
- Course Audience**
- Chapter 1: Setting the Strategic Direction**
  - Introduction**
    - Chapter 1: Learning Objectives**
    - Setting the Strategic Direction**
  - Lesson 1: What is a Quality Management System?**
    - Introduction**
    - What is a Quality Management System?**
  - Lesson 2: FM Model**
    - Introduction**
    - The FM Model**
    - People**
    - Places**
    - Processes**
    - Technology**
  - Lesson 3: Life Cycle Model**
    - Introduction**
    - The Life Cycle Model**
  - Lesson 4: Developing an FM Strategic Plan - A Starting Point**
    - Introduction**
    - Developing a Strategy**
  - Lesson 5: The Strategic Planning Overview Model for Facility Management**
    - Introduction**
    - Strategic Planning Model**
  - Lesson 6: Aligning FM with the Demand Organization's Mission**
    - Introduction**
    - Aligning FM and the Mission**
    - Module Review Questions [1]**
    - Chapter 1: Progress Check**

## **Chapter 2: Identifying Performance Improvement Opportunities**

### **Introduction**

**Chapter 2: Learning Objectives**

**Assessing Workplace Productivity**

### **Lesson 1: Three Levels of Performance**

**Introduction**

**Three levels of Performance**

### **Lesson 2: The Assessment Model**

**Introduction**

**The Assessment Model**

### **Lesson 3: Mapping a Process**

**Introduction**

**What is Process Mapping?**

**Determining Feasibility and Sustainability of Proposed Improvement**

**Chapter 2: Progress Check**

## **Chapter 3: Metrics**

### **Introduction**

**Chapter 3: Learning Objectives**

**Metrics**

### **Lesson 1: Making Better Decisions with Data**

**Introduction**

**The Goal of Performance Management**

**FM Information and ISO 41001 Data Requirements**

**The Need for Metrics**

**What is a Balanced Scorecard?**

**The Strategy Map**

**BSC- Based Performance Management System**

**Additional PM Models**

### **Lesson 2: Establishing Metrics and Measuring What is Important**

**Introduction**

**Establishing Metric**

### **Lesson 3: The Role of the Performance Management System**

**Introduction**

**Identifying Quality Data**

### **Lesson 4: Relationship of Metrics to FM Characteristics**

**Introduction**

**Relationship of Metrics to PM Characteristics**

**Survey Based Data**

### **Lesson 5: Steps to Establish Metrics and Measure Performance**

**Introduction**

**Establishing Metrics**

**Establishing Desired Outcomes**

**Prioritization**

**Implementation**  
**Monitor and Measure**

**Lesson 6: How to Choose the Right Metrics to Monitor, and How to Focus on Trends**

**Introduction**  
**Choosing the Right Metrics**  
**Performance Reporting**  
**Trend Analysis**  
**Performance Reporting Cycle**  
**Examples**  
**Chapter 3: Progress Check**

**Chapter 4: Measuring and Monitoring**

**Introduction**  
**Chapter 4: Learning Objectives**  
**Measuring and Monitoring**  
**Lesson 1: Determining what needs to be monitored and measured**  
**Introduction**  
**What Needs to be Monitored?**  
**Lesson 2: Where to look for Data**  
**Introduction**  
**Where to Look for Data**  
**Service Providers**  
**Return on Investment (ROI)**  
**Cost Avoidance verses True Cost Savings**  
**Chapter 4: Progress Check**

**Chapter 5: Performance Reporting**

**Introduction**  
**Chapter 5: Learning Objectives**  
**The Performance Reporting Cycle**  
**Lesson 1: Tracking Performance**  
**Introduction**  
**Tracking Performance**  
**KPI Metrics in Reporting**  
**Chapter 5: Progress Check**

**Chapter 6: Facility Management Quality Fundamentals**

**Introduction**  
**Chapter 6: Learning Objectives**  
**Lesson 1: The Evolution of Quality**  
**Introduction**  
**Timeline: Evolution of Quality**  
**Lesson 2: Basic Quality Terms and Concepts**  
**Introduction**

- Quality Terms and Definitions
- Lesson 3: The Goal of Quality Facility Management**
  - Introduction
  - Introduction to Quality Management Components
  - Quality of FM Services
- Lesson 4: Systems Thinking**
  - Introduction
  - Systems Thinking
  - Systems Thinking in FM: Example
- Chapter 6: Progress Check
- Chapter 7: Quality Measures for the Facility Organization**
  - Introduction
    - Chapter 7: Learning Objectives
  - Lesson 1: The Importance of Metrics**
    - Introduction
    - Metrics
  - Lesson 2: Measuring What Matters**
    - Introduction
    - Identifying and Measuring Metrics
    - Metrics: Additional Considerations
  - Lesson 3: Standards**
    - Introduction
    - Conformance and Consensus Standards
  - Lesson 4: Distinctions between Standards, Codes, Practices, Best Practices and Protocols**
    - Introduction
    - Distinctions Between the Terms
  - Lesson 5: Quality Data and Facility Performance**
    - Introduction
    - Tool: A Good Problem Statement
    - Tool: Gap Analysis
  - Lesson 6: Quality Control Tools**
    - Introduction
    - Quality Control Tools
    - Pareto Chart
    - Check Sheet
    - Flowcharts
    - Histograms
    - Cause-and-Effect Diagram and the Five Whys
  - Lesson 7: Quality Management Processes**
    - Introduction
    - Review: Quality Management Processes
    - PDCA Process

**DMAIC Process**

**Lesson 8: Basic Statistics**

Introduction

Basic Statistics

Measures of Central Tendency

Range & Standard Deviation

Statistical Process Control (SPC)

**Lesson 9: Leading and Lagging Indicators**

Introduction

Measurement Review

Lagging Indicators

Leading indicators

**Lesson 10: FM Internal Audits**

Introduction

FM is the Guardian

FM audits and practice

**Lesson 11: Service Specifications**

Introduction

Types of Service Specifications

Examples: Service Specifications

Selecting the Type of Specification for the service

FM Role in Service Specifications

Service Level Agreements

**Lesson 12: Key Performance Indicators Defined**

Introduction

Metrics and KPI's for Service Level Definition and Measurement

Summary: Choosing the Right Metrics

Chapter 7 Progress Check

**Chapter 8: Quality Assessment of Facility Management Services**

Introduction

Chapter 8: Learning Objectives

**Lesson 1: Measuring Customer Satisfaction**

Introduction

Qualitative and Quantitative Measures

Reliability and Validity

Complaint Management

Interviews

Focus Groups

Survey

Service Response Cards

Walk-through and Observation

Analyzing Stakeholder Feedback and Communicating Results

**Lesson 2: Analyzing Customer Feedback**

**Introduction**  
**Introduction to Survey Data**  
**Survey Data**  
**Analyzing raw data**  
**Communicating Results**  
**Acting on Customer Feedback**  
**Continuous Improvement**  
**Assessing Service Performance**  
**Performance & Quality Effective Practice**  
**Chapter 8 Progress Check**

## **Appendix**

**References**

**References:**

**Final Check**

**Topic**

**Glossary**

**Reference Materials**

## **Progress Check Question Answer Key**

**Chapter 1: Setting the Strategic Direction**

**Introduction**

**Chapter 2: Identifying Performance Improvement Opportunities**

**Introduction**

**Chapter 3: Metrics**

**Introduction**

**Chapter 4: Measuring and Monitoring**

**Introduction**

**Chapter 5: Performance Reporting**

**Introduction**

**Chapter 6: Facility Management Quality Fundamentals**

**Introduction**

**Chapter 7: Quality Measures for the Facility Organization**

**Introduction**

**Chapter 8: Quality Assessment of Facility Management Services**

**Introduction**

**Appendix**

**Final Check**

## **Index**
