It is essential that an equal opportunity for success is provided to every participant in each program, and that no person or group is given special treatment in the attainment and continuation of any credential.

## **Program Complaints and Feedback**

### **Complaints Definition**

Information about an individual shall not be disclosed to a third party by IFMA personnel without the written consent of the individual. Where the law requires information to be disclosed to a third party, the individual shall be notified of the information provided.

Requests for verification of progress in attaining credentials shall be provided only to the participant, unless his/her permission is granted in writing allowing release to others. Progress information shall be provided in writing and/or electronically.

To ensure the security of the examination, all assessment materials are confidential and will not be released to any person or agency. IFMA shall safeguard the assessment instruments and scoring keys/rubrics during the course of credentials program activities at all levels of the organization, including those of all volunteers and contractors acting on its behalf. Personnel handling the assessment instruments and scoring keys shall be provided procedures for the secure handling of exams and shall attest to reading and understanding them prior to their handling of the materials.

## **Managing Bias Policies**

### **Impartiality**

IFMA places the utmost importance on integrity and impartiality in carrying out its activities.

It is essential that an equal opportunity for success is provided to every candidate in each program, just as it is of paramount importance that all policies and procedures contribute to the development, oversight, evaluation, and maintenance of fair and equitable credentials and assessments which advance the profession of facility management.

Responsible for ensuring impartiality in all credentials activities, the Certificate Commission shall exercise due diligence in recognizing and acting on threats to impartiality, which include but are not limited to, self-interest, activities with related bodies, relationships of personnel, financial interests, favoritism, conflict of interest, familiarity and intimidation.

The Certificate Commission shall periodically conduct a threat analysis to determine the potential, both real and perceived, of an individual or an organization to influence the certification process for their own gain.

### **Conflict of Interest**

A conflict of interest may be defined as an interest that might affect, or might reasonably appear likely to affect, the judgment or conduct of an individual associated with the Certification Commission and its committees.

A conflict of interest may exist when the interests or concerns or potential interests or concerns of any staff member, contractor or volunteer, or any individual, group or organization to which one of these people has allegiance, may compete with the interests or concerns of the Certificate Commission and its committees, or may impair these people's independence or loyalty to IFMA's credential program and its committees.

The integrity of the Certificate Commission and IFMA's credential programs rest on the fact that stakeholders who have a specific interest do not participate in credential-related decisions from which they may benefit. This is accomplished by self-declaration of the individual as well as implementation of policies that define conflicts of interest for the Certification Commission and the personnel associated with it, whether volunteer, staff or contractors.

The presence of, and potential for, a conflict of interest is reviewed and addressed on an ongoing basis.

## Professional Conduct Policies

### Code of Conduct

I shall have as my primary goal developing and managing safe, human, and functional work spaces.

I shall integrate the needs of management with the needs of people in the workplace to develop and manage humane and effective work environments.

I shall have as an achievable goal maintaining objective, professional judgments. I shall not compromise this judgment by undertaking any activity, accepting any contribution or having any conflict of interest that would prevent acting in the best interest of my employer, clients, or those people for whom I provide or maintain workplaces.

I shall practice in a manner that supports the rights of employers, employees and clients, and shall not discriminate because of race, sex, creed, age, religion, disability, national origin or sexual orientation.

I shall continually seek new information to maintain and upgrade my professional skills relative to the design, construction, maintenance and management of the built environment as it relates to people and processes.

### Sanctions and Invalidating a Certificate

Sanctions may be imposed and/or a certificate earned by completing IFMA's certificate requirements may be invalidated by the Certificate Commission when it has been discovered that the certificate should not have been issued in the first place and/or for any of the following reasons:

- Obtaining the certificate through the use of fraud or deceit or assisting another person to do so; or
- Unauthorized possession, distribution, or use of any assessment-related materials or assisting another person to do so; or
- Failure to cooperate reasonably with any disciplinary investigation by the designee or Certificate Commission; or
- Violation of the Code of Conduct for FMPs, Commission certification rules, requirements, and/or policies.

If a FMP credential is invalidated, the person previously holding the credential will cease using the designation and logo immediately. Violation may be cause for legal action.

### Ownership of the Certification Mark and Logo Use

#### Property

The credential marks and logos are the property of IFMA. Permission to use the credential marks or logos is granted to credentialed persons at the discretion of IFMA for permissible uses only.

## **Persons Authorized to Use the Marks**

Use of the IFMA credential marks and logos is limited to those persons who have been granted a credential by the Certificate Commission and who satisfy all established requirements. Use of the mark and logo by individuals who have not been granted the credential with a current term of validity is expressly prohibited. Individuals may not use the credential until they have received specific written notification that they have successfully completed all requirements, and earned the credential.

## **Non-Assignability and Non-Transferability**

Permission to use the credential mark is limited to the credential holder, and shall not be transferred to, assigned to, or otherwise used by any other individual, organization, or entity.

## **Mark and Logo Use**

Those persons who have been granted permission to use a credential mark and logo shall do so pursuant to the rules and guidelines established by IFMA. Persons granted permission to use a credential mark and logo must familiarize themselves with the established rules and guidelines for use and must execute approved agreements setting forth such rules and guidelines for use.

After meeting all eligibility requirements and earning the credential, individuals may use the Facility Management Professional (FMP) credential in all correspondence and professional relations. The credential is typically used after the certificant's name following any academic degrees and licensure (e.g. Mary Smith, MBA, FMP or Mary Smith, FMP).

The IFMA marks and logo may not be revised or altered in any way. They must be displayed in the same form as produced by IFMA and cannot be reproduced unless such reproduction is identical to the mark provided by IFMA.

The mark or logo may be used only on business cards, stationary, letterhead and similar documents on which the name of the individual credentialed is prominently displayed.

The mark or logo may not be used in any manner which could bring IFMA into disrepute or in any way considered misleading or unauthorized. The mark or logo may not be used in any manner which would tend to imply a connection between any business and the credential which, in fact, may not exist. This includes any use of the mark or logo that the public might construe as an endorsement, approval or sponsorship by IFMA of a credential holder's business or any product or service thereof.
